

The Disabilities Ministry team is exploring options for bringing hearing assistive technology to our worship services at Ooltewah. In order for us to understand your needs as we consider the best options for our congregation, we would appreciate your filling out this short survey and dropping it in the offering plate or basket in the lobby.

1. Do you use a hearing aid? _____yes _____no

2. If so, what type of hearing aid do you use?

3. On a scale of 1-10, with 1 being "no difficulty at all" and 10 being "extreme difficulty," how would you rate your ability to hear during the worship service each week?

1 2 3 4 5 6 7 8 9 10

4. If hearing assistance technology were available, would you likely use it?

5. Do you have access to Bluetooth technology through your phone?

6. If you have used hearing assistive technology in a church that you felt worked well, please give the name of the church.

7. Is there anything else you would like to share with us that may be helpful?

8. If you would be willing to share your name and contact information (phone or email), we would greatly appreciate it.
